NICHE Resources

Improve your practice using the resources that reside in the NICHE Knowledge Center and the NICHE website. NICHE resources include online educational programs, methodologies and tools developed by experts and experienced NICHE sites and platforms to facilitate interaction with NICHE faculty and other NICHE hospitals. These resources help bridge the training gap and achieve real improvement specifically with...

Leadership Training Program

An affordable, adaptable six-week, web-based training program to bring NICHE to your hospital.

Planning & Implementation

Provides the most current content and protocols for full implementation of NICHE in an acute care setting.

Courses

NICHE Training and Education Courses include curriculums designed to provide the most current knowledge and skills in geriatric patient care to bedside nurses, patient care associates, and hospital personnel. Core curriculums include: Geriatric Resource Nurse (GRN), Gero Patient Care Associate (GPCA) and Introduction to Gerontology.

Organizational Strategies

NICHE Organizational Strategies are a series of toolkits designed to assist you in securing financial and organizational support for the NICHE program.

Clinical Improvement Models

A series of modules providing an overview of system-level adoption of clinical best practices.

NICHE Encyclopedia

A comprehensive reference tool to help users answer a wide variety of healthcare questions related to the care of older adults.

Geriatric Institutional Assessment Profile (GIAP)

Developed by NICHE for use by its designated sites, the GIAP enables hospitals to quantify staff knowledge, attitudes and perceptions in the care of geriatric patients.

Annual Institutional Survey

As part of the three-step Annual Re-commitment Process this survey is meant to provide the NICHE program with institutional data for each NICHE organization, so that NICHE can better meet each institution's needs.

Annual Program Self-evaluation

As part of the three-step Annual Re-commitment Process this evaluation is designed to be used internally by NICHE sites to plan and evaluate the current state and future goals of their NICHE program

"Solutions"

Success stories from NICHE hospitals based on the application of best practices related to NICHE Clinical Improvement Models and other NICHE resources.

"Need to Know by NICHE"

Simple, easy-to-understand information bulletins designed to help prepare patients and families for the realities of hospitalization.

Media Kit

Contents include a variety of high profile marketing materials available to NICHE hospitals to help communicate the older adult care quality message.

NICHE Conferences

Annual gathering of healthcare professionals to share the latest innovative practices and ideas in the care of hospitalized older adults

Speakers Bureau

Provides you with fast, easy access to geriatrics and other experts for speaking engagements.

Discussion Boards

Serve as forums for you to interact with others involved in the NICHE designation process, other NICHE sites and NICHE experts.

Live Webinars

Informative live presentations based on the "Solutions" success stories that describe innovative practices at NICHE hospitals.

Archived Webinars

An extensive library of presentations that describe the use of NICHE models and best practices to improve the quality care of older adult patients.

A Crosswalk: Joint Commission Standards and NICHE Resources

Document details how NICHE resources comply with the Joint Commission Standards in terms of care of the older adult hospital patient.

Hospitals Reports

Details initiatives and outcomes at NICHE Hospitals.
